Miami Dade College

### 12%

increase in graduation rates  
(MDC: 17%, BC: 7%)

### 140

students linked to job placement pipeline by 6 health care partners

# Health Foundation Impact Investments

In 2022, the Health Foundation made a **\$1M impact investment in the Florida Community Loan Fund (FCLF)**, which provides flexible capital and staff expertise to low-income communities across Florida.

The **South Florida Community Land Trust** directly benefited from the Health Foundation's impact investment approach. With financing from the FCLF, South Florida Community Land Trust purchased land for a future 200-unit multifamily development in Miami's Overtown neighborhood.

**MIAMI HOMES  
FOR ALL**  
SINCE 1985

The Health Foundation sponsored the Miami Homes for All housing pipeline analysis to assess the Miami affordable housing needs, and the pipeline needed to address these needs.
